eBike All-Weather Lube 250ml

Item number MO-20283

Specifications

Conditions	**All weather**
Size	**250 ml**
Made for	**eBike**
Case quantity	**12**
Range	**Bicycle & eBike Lube**

Description

Our eBike All-Weather Chain Lube is a high-performance synthetic chain lube specifically designed for the hi-torque loads applied to an eBike chain. Our unique water repellent, non-fling formula penetrates deep into the chain link, to create a durable protective coating which guards against corrosion and metal to metal wear. A unique blend of extreme pressure additives ensures the lube can stand up to even the most powerful e-bike drivetrains. Our formula will provide lubrication for long distance, on & off-road riding in all conditions under high torque loads. Unrivalled lube intervals will give you maximum protection over long distances.
