Description

When a puncture strikes just too big and gnarly to seal, the Muc-Off Stealth Tubeless Puncture Plug ultimate backup tool that’s cleverly stored inside your bar ends! The expanding silica plugs included cover most MTB, road and gravel handlebar sizes and the premium CNC Machined Aluminium bar ends are available in 12 anodised colours to match your ride. Each lightweight and durable set contains everything you need to get back riding when you’re stuck battling a hole that’s just not sealing: a stainless steel 2-in-1 puncture plug reamer tool, a variety of different sized tyre worms and a trimming knife.
