Tubeless Valves - V2 - 60mm / Black

Item number MO-20430

Specifications

Discipline	**All disciplines**
Size	**60 mm**
Product type	**Valves**
Case quantity	**12**
Range	**Sealant, Tape & Valves**

Description

Introducing our V2 Tubeless Valves with a new Tyre Insert Air Flow System. Featuring 6 slots machined into the base of the valve stem allowing them to be compatible with most tubeless tyre inserts and allow your tubeless sealant fluid and air to flow freely when running tubeless tyre inserts. We've also upgraded them to aircraft-grade 7075 aluminium to be lighter and stronger than before! Supplied with 3 sets of different shaped rubber inserts to fit a variety of rim shapes and create the perfect valve to rim seal. Running a Bosch eBike Rim Magnet Speed Sensor?
