Description

Featuring all five Muc-Off brushes in a handy storage bag: Our Soft Washing Brush with sintered bristle compound is designed to clean your frame and components while caring for delicate finishes. It’s all new design features a tough, impact resistant handle that won't slip in extreme conditions, an oversized head for fast cleaning of large areas and rubberised impact zones for maximum protection. Our Detailing Brush is ideal for reaching hard-to-shift dirt on sprockets, hubs and other tight areas such as suspension mounts or fork crowns. It’s new design features a tough, impact resistant handle that won't slip in extreme conditions, durable nylon bristles and rubberized impact zones for maximum protection on delicate finishes. Our Claw Brush features high quality construction with triple brush heads with tough nylon bristles and an integral scraper for mud de-clogging. It’s ideal for chain, cassette and sprockets, and it’s even 10-speed compatible. Our Wheel & Component Brush is shaped and contoured specifically to clean rims and spokes with ease. Its unique design features an impact-resistant, dual density handle and durable nylon bristles. Our Two Prong Brush is ideal for reaching hard-to-shift dirt on spokes, discs, shocks, cranks, linkages and pedals. It’s design features a tough, impact resistant handle that won't slip in extreme conditions and durable nylon bristles.
