Description

Meet the next generation of high-performance wax lube. Dark Energy Chain Wax is your hidden performance advantage. Formulated to maximise efficiency, durability and low wear in a single dropper wax, delivering a clean, fast and quiet drivetrain. Developed in-house at the unique Muc-Off R&D Lab, Dark Energy is the result of four years of testing across 90+ formulations, equating to over 8,500 hours of lab and independent machine testing with over 100,000km of real-world riding by our in-house test team and pro-team riders. A blend of cutting edge, highly refined waxes which includes a plant-derived, inherently biodegradable wax. It forms a durable dry-film barrier designed for consistent very high performance in dry and damp conditions. Whether you're racing, training or just out for a blast on your road, gravel or mountain bike, Dark Energy helps to reduce maintenance through long-lasting wear protection and exceptional durability performance.
