Description

For either bicycle or motorcycle, to refill your Nano-Tech cleaner. The Bike Cleaner Concentrate has arrived! That’s right; our relentless R&D team made our Bike Cleaner that much better by creating a handy refill concentrate! It’s the same award-winning cleaner but in concentrated form! Each 1L concentrate will m ix with water for up to 4 litres of Bike cleaner. Or, if you’re really into bulk buying, our 5 litre concentrate makes up to 20 bottles of Bike Cleaner! Re-using is even better for the environment than recycling, and that’s what makes the Bike Cleaner Concentrate so amazing. Each 1L bottle of Bike Cleaner Concentrate uses 75% less packaging than the equivalent four bottles of 1 litre Muc-Off Bike Cleaner. So don’t chuck out your old Bike Cleaner bottle; save it and save the planet. It gets even better. The Bike Cleaner concentrate can also be used as a powerful degreaser in its concentrate form and it really works like a charm in Muc-Off’s X-3 Dirty Chain Machine ! How’s that for multi-use? In case you were wondering, the Bike Cleaner Concentrate is safe to use on your bike’s frame, forks, headsets, shock units, bars, grips, seats, pivot points, rims, wheels, spokes, hubs, disc brakes, suspension parts, gears/sprockets, aluminium, anodised metal, paintwork, chrome, carbon fibre, steel, plastics, composites, decals and rubber.
